Montpelier, VT 05609-0101

Dear Jim,

Please find attached the City of Burlington's federal funding priorities. Many of these projects are ready to go and will have regional impact beyond Burlington. I had the opportunity to talk with Vermont's federal delegation about these priorities when I was in Washington last week.

I appreciate that you have been advocating for Vermont's needs on the federal level. Addressing current economic challenges will require a joint effort on the part of local, state and federal governments. I look forward to working with your office on these critical issues.

With best regards,

Bob Kiss, Mayor
